

Welcome to Our Monthly Newsletter

Welcome back to another exciting term at Happy Chatters Speech and Language!

As the leaves begin to turn and we move into autumn, our clinics are full of laughter, learning, and progress. We're so proud of the children we work with and the families who support them every step of the way.

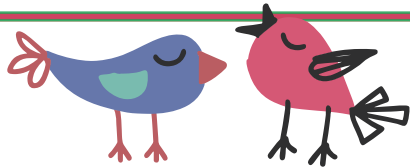

Back to School!

September marks the start of a brand-new school year, and we hope all our children have settled happily into their routines.

Transitions can be challenging, but we're already hearing lovely updates from parents and teachers about how well everyone is adjusting. Remember, small steps lead to big achievements!

If your little one is finding it tricky to settle, don't worry. Our team can share simple communication and sensory strategies to help with school transitions.

New and Exciting at Happy Chatters

Celebrating Inclusion : Our Amazing Work Experience Student

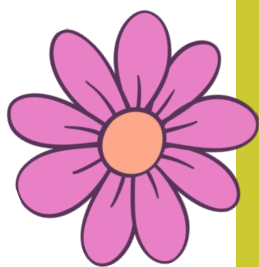

We are absolutely delighted to welcome an incredible young lady to the Happy Chatters team this term.

An 18-year-old autistic girl has joined us for her work experience. Her dream is to pursue a career supporting autistic children with their speech and language development ,and she is already doing amazing!

She has shown kindness, curiosity, and a true passion for understanding how children communicate through play and Gestalt Language Processing.

We feel privileged to have her with us, and we are so proud to support her journey into this field.

October Half-Term Holiday Club at Ashley's House

This October, we're thrilled to announce the Holiday Club for Autistic Children at Ashley's House!

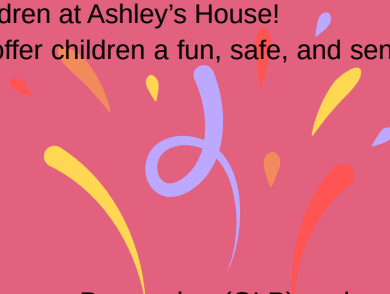

The club will run during the October half-term break and is designed to offer children a fun, safe, and sensory-friendly space to play, learn, and build friendships.

Activities include:

-  Sensory art & craft sessions
-  Communication and play-based learning
-  Music, dancing, and storytelling
-  Outdoor sensory exploration

The holiday club is led by our experienced team trained in Gestalt Language Processing (GLP) and neuro-affirming communication approaches.

Spaces are limited, so please book early to secure your child's place at www.ashleyshouse.co.uk .

Star of the Month – Child Z.

This month, we want to celebrate one of our children from our Iver branch who has made incredible progress since joining us earlier this year.

When he first started with us in May, he had just a few spoken words, and many were not clearly audible. Through weekly sessions at our Iver clinic, and more recently in his nursery setting, we have seen remarkable progress in both his language and engagement.

His special interest is Peppa Pig, and many of his early phrases were scripted from the show. By following his lead and using his scripts as a bridge for interaction, we've been able to model and expand on his natural language.

Now, he happily plays with his siblings, enjoys interactive games like catching and throwing a ball, and shows a wonderful imagination with toys.

Each week brings more spontaneous language ,commenting naturally on things he sees and experiences, such as "It's a slide!" or "Let's catch the ball!"

Hearing this growth has been so rewarding for our team. It's a joy to witness how connection, consistency, and the GLP approach can bring real communication to life.
